September 13th, 2018

To Whom It May Concern:

As the Facility & Operations Manager at Spectrum Sports Academy in Roanoke, VA, I have had the privilege of working with ICan Shine Bike Camp since 2013. Spectrum has been the host facility for four summer bike camps and we are fortunate to have ICan Shine Bike Camp returning for another camp in the summer of 2019.

As a veteran host facility, I have been asked to write a letter attesting to the fact that the biking equipment used by ICan Shine Bike Camp is extremely safe when it comes to the use on hardwood floors and a facility. Of course this was a concern for our facility staff, but we can assure you that after years of having the ICan Shine Bike Camp in our facility, we have not had any damage to any of our hardwood gymnasium floors. The types of tires are easy on the floors and we have never had any issues with permanent scuff marks or scratches. Each rider is assigned a trained volunteer who will assist the rider. In the rare occasion that a rider may fall over, the volunteers are trained to assist in protecting the riders as well as the floors for any damage.

At Spectrum Sports Academy, we are honored to be the host facility for the ICan Shine Bike Camp. If you have any further questions you may contact me directly by email at cjohansen@spectrumsportsacademy.com or by phone at (540) 561-0921.

Sincerely,

A handwritten signature in black ink, appearing to read "Cathy Johansen", with a long horizontal line extending to the right.

Cathy Johansen
